

## Sitzbock.

204 range

Sitzbock  
Design: Rudolph Schelling Webermann

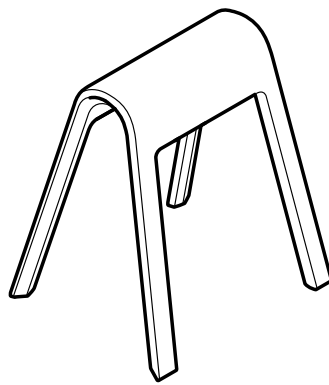

Nowadays, a big challenge businesses face is to find ways of nurturing a team spirit and animating staff to stop and chat, brainstorm and collaborate. These two new eye-catchers have what it takes.

The Sitzbock pommel horse seat comes in black, white, grey or orange. Just like a real horse, people can sit astride or ride "side saddle" or use it to lean on. At just 4.8 kg in weight, they're easy to place in groups for spontaneous meet-ups, stack cross-wise or pick up and put on patios for a while.

There's also an optional anthracite, light mottled, graphite or mango-coloured felt "saddle blanket". Grouped in small herds, the Sitzbock pommel horse seats conjure up an atmosphere that's just as playful as it is ergonomic and invites interaction.

204/01  
Polyethylene, black

204/02  
Polyethylene, in white

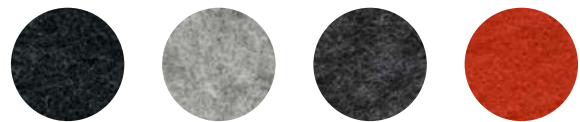

204/03  
Polyethylene, in grey

204/04  
Polyethylene, in orange-red

**Felt cushions**

204/11 graphite, 204/12 light mottled, 204/13 anthracite, 204/14 mango
